

Environmental Policy Plan - Statement of Policy

It is the policy of Moreton & Partners to provide our services consistently and efficiently within an environmentally sound framework and to continuously seek to improve our environmental performance.

The Practice fully recognises that its business activities have an impact on the environment in which we operate however as a service provider we believe that the growth of our business can be achieved within a structure of sustainable development and environmental awareness.

We will strive to minimise the environmental impact of our operations throughout the life cycle of our service provision which includes, but is not limited to, business development, procurement, and service delivery and have developed a series of action plans to supplement our environmental policy objectives.

The Practice recognises these key impacts:

- Energy use
- Waste generation
- Business travel
- Procurement of products, equipment and suppliers
- Environmental emergencies

The Directors are committed to the continual improvement of the business' environmental performance and to the adoption of environmental best practice. To achieve this, the Practice will endeavour to:

- Embrace environmental standards in all areas of operations, comply and where reasonably practicable exceed the requirements of relevant legislation, regulations, and codes of practice;
- assess work practices and highlight where we can minimise impacts;
- with sustainable development in mind, seek to reduce adverse environmental impacts of our business activities on the environment on an ongoing basis through seeking continuous improvements;
- procure sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products];

- minimise waste and the consumption of resources (materials, fuel and energy) and ensure unavoidable waste is recycled, reused or recovered where possible, and disposed of responsibly to improve our environmental performance and prevent pollution;
- protect, conserve and enhance the natural environment as far as we can control;
- provide information, instruction, educate and encourage and support all staff to understand the environmental issues affecting the organisation, to take responsibility for their actions and to highlight their contributions to environmental performance;
- promote an open exchange of information and dialogue relating to our environmental management with relevant stakeholders;
- reduce accident and incident risks from environmental impacts for those who may be directly or indirectly affected by our business processes;
- include environmental and ethical methods when deciding investment opportunities;
- improve on developing solutions to environmental impacts;
- monitor and where possible reduce the impact of our activities on the local and general environment and to support appropriate environmental initiatives within our community;
- monitor progress and review our environmental performance, objectives, and targets on an annual basis.

The Directors will periodically review this Environmental Policy Statement in the light of legislative, regulatory, scientific, and ethical business developments.
